

HOW TO SELECT AND ASSEMBLE A GLASS RACK

pro.equip

1

STEP

Using the handy size guide on the next page, measure the diameter and height of your glasses.

2

STEP

Select a compatible glass rack extender

Tip: It's important to measure the height of your glasses to ensure you have the correct number of extenders. Use our helpful *Glass Rack Size Guide* to make the correct choice.

3

STEP

Assemble the glass racks and extenders to fit your glassware

GLASS RACK SIZE GUIDE

Follow the steps below to select the right glass rack for your glassware.

STEP ONE  Measure the **diameter** of your glass
Position the glass upside down over the circular chart below.

Identify which circle best matches the widest part of the glass (base, body, or rim). This will indicate the correct compartment rack size.

STEP TWO  Measure the **height** of your glass
Refer to the vertical guide to determine how many extenders are needed. If the glass height falls between two extender levels, choose the higher one for proper fit and protection.
